

ADR 22 is NOT enough.

HiTV's DVD Headrest is both ADR22 & ADR3/03 approved.

Make sure your DVD headrests comply with ADR3/03 to lead the safest holiday trip with your family.

ADR 22 - Head Restraints

ADR22/00 is Head Rest design rules and it refers to head rest only as a seat component and test parameter as well as the detailed head rest specification.

ADR 3 - Seats & Seat Anchorages

ADR 3/03 is Seat and Seat anchorages design rule and it refers to all seat components, including head rest, child restraint anchorages and back rest. We need this design rule to determine position of the "R" point from which the load of 37 dNm to be applied. **ADR3/03 is the latest revision of ADR3.**

Safety Guide to Purchase Headrest

Right above: HiTV's one-piece-forged stainless steel post design to secure your driving safety. The material used for the post has passed the strength test in Australia & America.
Right bottom: HiTV's 2mm thickness tube which could be customized to fit your car post size.
