FOR IMMEDIATE RELEASE

HiTV Communications discloses in-car TV's latest – HiTV PURE II

Sydney Australia, May 31st, 2006. HiTV Communications, the leader in mobile Digital TV entertainment and distributors of the HiTV Pure mobile digital receiver today announced the newest addition to its product range – HiTV PURE II.

HiTV PURE II is the worthy successor to the first digital TV receiver designed specifically for Australian conditions – the HiTV PURE, first released in December 2004. HiTV PURE II now bring even better viewing experience for the passenger in a package that's just two-thirds the physical size of its predecessor. HiTV PURE II captures free-to-air digital television (DVB-T), allowing car passengers to be entertained and informed by a wide range of high-quality programming.

HiTV PURE II represents the state-of-the-art technology digital TV receivers. Using technology from Germany and France such as twin-tuner chipsets, integrated controllers, and the latest 32 bit-VL RISC CPU designs, HiTV PURE II is simply outstanding when compared to its rivals. Together with high-performance diversity antennas from HiTV, it brings excellent reception quality regardless of whether you're in a permanent position or on the move to a speed of over 130km/h.

HiTV PUREII is compatible with all existing HiTV DVB-T antennas, such as the recently released R4 roof-mounted antenna. HiTV is the only manufacturer that provides a wide-range in choice of antennas to complement its digital TV receivers.

There are a wide range of free-to-air programs to choose from including traffic updates, weather reports, breaking news, live sports coverage and stock market watch. It is also teletext enabled. All these made possible by the existence of digital television revolution. The numbers of channels are expected to increase to 19 and more in the near future.

Similar to HiTV PURE, HiTV PURE II also serves as an entertainment hub. The device is outfitted with 2 AV Inputs which let users to connect their DVD player, cam-coder or video gaming players like PlayStation for example. HiTV PURE II also comes with 4 AV Outputs. This permits the user to set up to 4 screens/monitors in the car. For safety reasons, the HiTV PURE II is equipped with handbrake safety support system which disables the driver-side screen when the car is moving.

Like all HiTV Communications' products, HiTV PURE II is certified by E-Mark and C-tick standards. HiTV PURE II passes all standards relating to temperature and shock resistance, and Electromagnetic Interference (EMI) protection.

HiTV Pure II Mobile Digital TV Receiver
