

## **PRESS RELEASE**

### **For Immediate Release**

**HiTV Communications unveils the automotive car audio that will get you talking.**

**Sydney Australia, December 01<sup>st</sup> 2006**, HiTV Communications, the leader in mobile digital TV entertainment and contributor, today announced the release of HiTV Bluetooth Car Kits. The new evolution of hands-free Bluetooth mobile phone connector that will bring you a safe and comfortable driving environment. HiTV Communications is dedicated to give you the safety and control you need to enjoy more in car.

Are you ready to take more control of your vehicle with just easy operation and automatic connection; HiTV's Bluetooth car kit allows you to connect your mobile phone to your head unit for hands-free calling and total control with the original head unit. Wireless Bluetooth technology combined with car stereo provides an innovative, reliable performance solution to a safe in-car communication platform.

With HiTV Blue 530, the classic factory look, you will feel that it is made to fit with any vehicle with the clean original factory look you ever desired. HiTV Blue530 has its user friendly character, its big buttons are clearly indicated with its symbol, and they are easy for you to use even when you are driving at the same time. There are more about HiTV Blue530, such as the auto and manual answer function, mute function of microphone for privacy from the other party. More conveniently, the size of HiTV's Bluetooth is so small that you can fit it anywhere you want.

The superior modern design looks perfect in every vehicle. The receiver is hidden in the dash board, and you won't even see the cable at all; the microphone is installed behind the steering wheel, so it can receive clear voice and no fuzziness.

Safety is always one of the principal that HiTV concerned about, and that is why HiTV only provides the best product to ensure users' safety. With the voice recognition support, you can easily make a call by reading out the recipient's name, so you can continue concentrating on driving and making the call at the same time without looking away from the road.

Compatibility is the most crucial thing to technology, and HiTV's Blue530 has it; it is for all car makers and model types. Also available for regular compatibility upgrade, if you happen to have a newer mobile phone, we can always upgrade your Bluetooth's software; and that is what makes HiTV's Blue530 better and reliable.
