

PRESS RELEASE

For Immediate Release

HiTV Communications unveils the iPod AV Interface that turns your car into an exceptional entertainment Hub and still gives you the full control on your iPod.

Sydney Australia, February 15th 2007, HiTV Communications, the leader in mobile digital TV entertainment and contributor, today announced the release of i-Hub, the iPod AV Interface. Craving an easier and faster way to enjoy your music and movie collection in your personal iPod, you can not afford to miss out the fun that i-Hub is going to bring you, so get ready to take your iPod for a ride.

With extremely easy and fast access to more music and movies, i-Hub takes all your favorites with you in car. i-Hub gives you the satisfaction of having the ultimate mobile entertainment system.

Simply connect and enjoy the ride with i-Hub, the ultra data transfer speed is faster than you ever imagined. You can store your favorite music, movie and photos in your iPod, and let i-Hub entertain you all the way.

i-Hub is the first interface that can fit with any car screens with composite input, once i-Hub is connected, you will have total control, ultra speed and full sound that your music should sound like. Having i-Hub, you don't need to change your factory head unit or any generic head unit; direct iPod connectivity it's just one cable away.

Complete compatibility means i-Hub can work with all the iPod in the market. In addition, i-Hub also can display artist, album, song, folder information right from your head unit, too many songs to skip? i-Hub allows you to jump between folders with just a push of a button. i-Hub is the first and the only interface that allows you to have the total control over your head unit yet still let you have the control on your iPod, so it is more convenient and safer for drivers while driving.

What more can you ask for when you have i-Hub installed in your vehicle. With the AV AUX Input, you can enjoy the multi device, the choices are endless, why not have a digital TV Tuner box or DVD player connected with i-Hub and make your head unit system a true in car entertainment hub.

Your iPod will be charged at the same time while it's connected, so you can enjoy your music or movie on the road without worrying about the battery.

The easy installation will not change the interior of your car even a little, as our wireless design requires no modification to the interior of your vehicle. So you should not void the factory warranty.

HiTV i-Hub will turn your head unit system into a full entertainment Hub within just a cable away.
