

**PRESS RELEASE**  
**For Immediate Release**

**HiTV Communications disclose the compact head unit screen-  
HiTV 2000 Series**

**Sydney Australia, November 1<sup>st</sup>, 2007.** HiTV Communications, the leader in mobile infotainment system today announced the head unit screen with factory harness that fits right into your vehicle with absolute factory integration.

Are you looking for something original and classic for your front seat? HiTV 2000 Series is the one you are after. HiTV 2000 Series upgrade your vehicle from original to an ultimate infotainment centre without cutting wire and changing the interior look of your vehicle.

HiTV is dedicated to bring you the maximum joy and convenience in car in a minimum size of box. With HiTV 2000 Series, you will experience a whole new driving environment. The built-in navigation with top of the range software and it's specially designed for in car use, now you can save more time from flipping through the map and trying to figure the way out. When Bluetooth car kit became a necessity, HiTV 2000 Series is also ready to connect your mobile phone. No more worrying about getting tickets when talking on the phone while driving, HiTV 2000 Series is giving you a safer driving environment.

HiTV 2000 Series is the perfect companion for boring long trip. Built-In DVD player would make your trip more enjoyable, quality image and factory stereo sound would make your vehicle just like a personal theatre. Better yet, all these functions can be controlled by the incredible touch screen, so everything is just a finger tip away.

HiTV 2000 Series is even compatible with your Volkswagen and Toyotas' CAN BUS solution, which allows you to have total factory control. This function enables you to remain the factory steering wheel control, and it is something that you don't want to sacrifice. HiTV 2000 Series is specially designed to fit Toyota, Volkswagen and Audi.
