

## GET MORE SPACE

The new Waeco CDF-11 is only 235mm (9 1/4in) wide, making it the smallest compressor-driven fridge/freezer on the market. It utilises the smallest of places and fits where - in the past - other fridge/freezers couldn't.

With a capacity of 10.5L and enough height for a 1.25L bottle, it has the cooling capacity of 50°C below ambient, making it perfect for that convenient drink or snack while on the go. The perfect touring fridge, the CDF-11 operates on 12/24V DC and features full battery protection, cup holders and a carry strap for easy portability. ## BECOME A MASTERCHEF

Improve your cooking and release your inner chef with the portable LeMax electric grill. Made with a glass-ceramic surface, the LeMax needs little fat or oil to cook the food and is non-porous and smooth, making cleaning easy! It has a short pre-heat time and can be used for everything - from grilling steaks to cooking toasted sandwiches and pizzas. It is also equipped with a low setting so the LeMax can be used for a warming tray. Portable with insulated cool touch handles, the LeMax is suitable to take out on the road.

## UPGRADE YOUR TV

Digital TV is taking over our home sets, with more free-to-air channels than ever before. Now you can take these with you in your RV with the HiTV Belva 40. Never miss a grand final or your favourite programme again with this portable digital TV.

The 3.5in TV can receive all standard-definition programs. It has a built-in high-sensitivity digital antenna and a portable external antenna when needed. It's the perfect portable media player for the road. The built-in MP3 player can hold up to 32GB of storage and supports AVI, MP4 and more.

## WATERLESS CLEANER

If you've ever wanted to clean your vehicle and/or RV while touring but don't want to waste water, then FW1 will leave you happy. A waterless cleaning wax is a natural UV-protectant carnauba wax with a lubricant that removes dirt, grease, tar, bugs, marks, tree sap, and even most faded paints in a matter of seconds to restore your vehicle and/or RV.

It repels brake-pad dust for up to six weeks and protects alloy wheels from dust. Use it to clean non-porous surfaces such as chrome, glass and fibreglass as well as your vehicle, RV, motorbike or boat.

[www.fw1.com.au](http://www.fw1.com.au) or call 1300 764 241.
